

Tidligere eksamensoppgaver

INF100 endrer seg alltid litt fra semester til semester. I forhold til tidligere har vi dette semesteret gjort mye grafikk og lært oss rammeverket uib_inf100_graphics, mens det før har vært større fokus på biblioteker for å regne på store data, slik som numpy. Til eksamen høsten 2022 kan du regne med at spørsmålene vil la seg løse med de verkøylene som har vært i fokus i ukesoppgavene. Med andre ord, det er større sjanse for at en oppgave må løses med uib_inf100_graphics enn at den må løses med numpy, selv om dette ikke reflekteres av tidligere eksamener.
